## Coldest Easter on Record, Six Below Monday Night.

Sunny Southern Alberta and The Crow's Nest Pass experienced what is probably a record for this section of the country in cold weather at Easter time, when during the night on Monday and early Tuesday morning local thermometers registered six below zero. The cold snap was accompanied with snow and a biting wind from the East.

This visit of King Winter was all the more unwelcome owing to the nice, Spring-like weather prevailing last week, when the glass was recording around fifty and sixty above. The change was heralded on Sunday, when after a nice, bright Spring morning, the wind veered to the East and snow flurries occurred during the afternoon and evening, turning into a real storm with a cold East wind Monday. Snow continued to fall throughout the day and the ground was covered to a depth of about three inches by nightfall, when it stopped and the mercury began to drop rapidly, reaching its low point during the night.

On Tuesday the sun broke through the clouds and the temperature moderated considerably, and although the wind still holds in the East, there is every indication that Old King Winter's visit is, happily, a fleeting one, and warmer weather is in the offing.

A number of blue birds and robins, recent arrivals from a less rigorous climate, were found lying on the snow Tuesday morning, having succumbed to the extreme cold during the night.

## What The B.E.S.L. is Doing For Returned Men in Alberta

The British Empire Service League has secured adjustments and increases by proving claims to pension, totalling \$638,542.00, for returned men who had genuine war disabilities.

The B.E.S.L. has secured pensions for widows totalling the sum of \$257,683.

The B. E. S. L. has placed over 2,000 man in positions.

The B.E.S.L. has adjusted 5,129 cases for returned men.

The B.E.S.L. has obtained and distributed \$160,000 for relief of suffering returned men and their families, in the winters immediately following the war.

We are responsible for the present rate of pension being what it is today. It must be remembered that the total disability pension in 1915 was \$30.00 per month. Today it is \$75.00 per month. There is not a pensioner today who should not realize that the existence of the B.E.S.L. has meant to him, and if he wishes to show his gratitude he should, while inactive as an individual, continue his membership and foster the work of the Association which has and is looking after his interests. There is absolutely no excuse for any pensioner not being a member of this organization.

The B.E.S.L. secured waiver of interest for soldier settlers and the reduction in live stock of 40 and 20 per cent for soldier settlers.

The B.E.S.L. secured the possibility of converting a preemption into soldier grant.

The B.E.S.L. is directly responsible for the present existence of the Appeal Board for returned men, which by its mere existence has been instrumental in securing consideration for those disabled men suffering from real war disabilities.

With the assistance of Branches the B.E.S.L. has been instrumental in the erection of Memorials in all the prominent cities and towns in the Province

**SIR AUCKLAND GEDDES**  
Former British Ambassador to the United States, who broke his long political silence recently to criticize the anti-British feeling in the United States among the lower and middle classes. He claims that a good deal of the anti-British feeling in China was caused indirectly by young Chinese returning from the States and repeating the "glorified they had heard about British tyranny and imperialism."

## Cameron School Grounds Should Be Fenced.

On several occasions residents in Coleman have drawn our attention to the fact that the Cameron School grounds, in West Coleman, have never been fenced. This is a matter that should have received attention years ago, as the School Ordinance clearly sets forth that, "The grounds SHALL be surrounded by a suitable fence (not barbed wire) which should be kept in good repair."

Aside from the legal aspect of the matter, the fencing of these grounds would tend to make for safety for the children, and also be the means of assisting in beautifying school surroundings in affording protection to shrubs and trees planted in the grounds. Last Arbor Day teachers and children of this school worked hard in setting out trees, etc., in the grounds surrounding Cameron school. A few months after this was done not the slightest vestige of their praiseworthy effort remained.

With a provincial motor highway passing within a few feet of the playground at this school, it is criminal negligence on the part of the Board to allow these grounds to remain unfenced.

## Golfers Have Good Attendance at Annual Meeting

About twenty golfing enthusiasts were in attendance at the annual meeting of the Coleman Golf Club, held in the Council Chambers on Monday evening of this week, and from the enthusiasm evident golfing will be even more popular here this season than has been the case in the past.

The following officers were elected for the ensuing year:—

President—Mr. Geo. Kellock.  
Vice-Pres.—Mr. R. Gillis.  
Secretary-Treasurer—Mr. D. E. McLean.

Executive Committee—The above officers and Messrs. R. G. Powell, R. Garner and O. E. S. Whiteside.

In an impromptu of "Saintry Sam", one of the most notorious European crooks, Mr. D. E. McLean will positively appear at the Grand Theatre, Coleman, on May 4th. Mr. McLean has delighted many Coleman audiences before, and those who have been fortunate enough to witness rehearsals state that this role is at once the most convincing and difficult portrayed on the stage at Coleman or elsewhere in the Crow's Nest Pass.

## Catholic Bazaar Draws Big Crowd Despite Stormy Weather and Proved Successful

The big bazaar held in the Opera House by the ladies of the Holy Ghost Catholic Church, on Monday was very successful from the standpoint of attendance, display and financial returns.

In the evening over twenty tables sat down for Whist, and the number would have been thirty had there been enough of tables. The prize winners were:

Gents 1st—Mr. Goldring.  
Gents 2nd—Mr. W. Roughton.  
Consolation—J. H. Kapalka.  
Ladies 1st—Mrs. M. Kwasney.  
Ladies 2nd—Irene Kovach.  
Consolation—Mrs. Chelmers.

The day broke with a real Dakota blizzard, but in spite of that, the crowds turned out in goodly numbers, and the ladies in charge wish to thank the patrons and the public of Coleman generally for their kind patronage.

The drawings for the various prizes was held after refreshments had been served with the following result:—

Center Piece—worked by Mrs. M. Kovac and Mrs. J. Panek, won by Mrs. Wm. Donaldson.

Hooked Yarn Rug—worked by Mrs. A. McLane and Mrs. W. McInnis, won by Mrs. D. Gillis.

Half dozen White Leghorn Chickens—donated by Mr. and Mrs. Wm. Graham, won by Louis Paika.

For the Tombs lot, the following were the lucky ones:—  
2 tons coal—John Pietrowski.  
Ten dollars in Gold—D. Gillespie.  
Five dollars in Gold—Rev. R. J. Donovan, Bellevue.

Military brushes—Andrew Taron.  
Hooked Yarn Rug—F. C. Heney.  
12 lb Ham—Mrs. D. McLellan.  
Gentlemen's Tonsorial Outfit—Mrs. Blythe.

Side of Shamrock Bacon—R. W. Dever, Winnipeg.

50 Preference Cigars—M. Taron.  
12 lb Creamery Butter—J. Alashore, Natal.

98 lb sack Parity Flour—E. McDonald, Blairmore.

## Elks Present Jewels to Past Exalted Rulers

Members of B. P. O. E. No. 117, Coleman, were out in force last Friday evening to attend a combined Smoker and Presentation ceremony in their lodge rooms, and the affair proved to be one of the most pleasant fraternal gatherings ever held by local Elks.

Following the completion of the regular business session, District Deputy Robt. Gray, of Blairmore, made a very fitting and impressive address preceding the presentation of Past Exalted Rulers jewels to Bros. A. M. Morrison and C. W. MacKinnon. The recipients replied feelingly, thanking the lodge for this token of high honor conferred upon them, and assured the members present that they would always be found striving to advance the welfare of Elkdom.

The smoker and a varied musical program in which a number of visitors from Blairmore took a prominent part, completed a real Elk social evening.

The dance in the Opera House on Wednesday evening, given under the auspices of the Coleman Baseball Club, drew a packed house and was much enjoyed by the large crowd. The Elks' Bandwell Orchestra, of Pincher, supplied the music, and many novelties were featured during the evening. Watch for data of next dance to be given by the local ball club.

## Amateur Dramatic Club To Present "Facing The Music"

In response to popular request the Coleman Amateur Dramatic Club will produce "Facing The Music" on or about May 4th next. This is a farce comedy in three acts and exceeds in laughter producing qualities any play which has heretofore been attempted or perpetrated in the Crow's Nest Pass.

The members of the cast have all had considerable experience before the footlights and many of them have entertained Coleman audiences in the past.

The latest amateur production here, "Mrs. Temple's Telegram" was a great hit and the Club has been fortunate in securing the services of many of those who took part in that play.

The scene in "Facing The Music" is laid in jolly old London and the plot concerns the difficulties one, Smith, finds himself in upon returning to his flat after being fog bound all night, to find it in possession of a strange woman, and himself the victim of a diabolical conspiracy conceived by a gang of international crooks headed by the villainous Saintry Sam.

How he is extricated from his difficulties and truth triumphs is vividly portrayed by the talented cast. No expense is being spared in this production, and the audience is assured of a hilarious evening's entertainment at practically no cost to themselves.

## SCOUT NEWS

Come On Out/  
Investiture and Supper

A very successful evening was had on Tuesday last when about 85 boys of No. 1 and No. 2 Troops, held an Investiture in St. Alban's hall at 6:30. Commissioner Key-Jones in charge. Two Scouts of No. 1 Troop and six of No. 2 being invested. At 7 o'clock the boys sat down to a big supper to which they all did justice. A number of popular choruses was then sung, followed by games.

During the last hour several boxing contests were held, Commissioner Key-Jones acting as judge, Scoutmaster Father McCormick, referee, and Scoutmaster Brown as timekeeper.

The boys moved three hearty cheers for Mrs. Brown who had charge of preparing the supper.

The Scoutmasters wish to thank all parents and others who donated towards the supper and thereby helped to make a very enjoyable evening for the boys.

On Good Friday No. 1 Troop met at St. Alban's hall at one o'clock and went for a hike. On the way the boys enjoyed a game of football, after which the hike was continued, returning via the Dam, when Fire Lighting tests were taken by several of the Scouts and a camp here made. After a rest and a game, the boys returned at 6:30 p.m.

## Cubs Take Notice

The regular weekly meeting of Cubs will, commencing next week, take place on Monday evenings from 6 to 7:30 p.m., instead of Tuesday from 6 to 7, in St. Alban's hall. Almost sufficient Cubs are now in sight to form the third patrol.

## MERCHANT MARINE LOSSES REDUCED

The annual report of the Canadian Government Merchant Marine shows a distinct reduction in the operating loss for 1926 of \$857,254. The operating loss for 1926 was \$30,159.91 as compared with \$34,053.34 in 1925. R. B. Teakle (above) General Manager of the Merchant Marine explained that under the present rates there was an estimated loss on a ship-load of cattle of \$1,275.

## First Annual Smoker of C.Q.C. a Howling Success

The Coleman Quoting Club held their first annual smoker on Friday evening of last week. It was a success from every point of view. With Mr. George Kellock, Hon. Pres., in the chair, and the best of talent at his disposal, the time passed too quickly.

The following artists contributed to the evening's enjoyment: Mr. T. Cuthbert, Mr. A. Phillips, J. Russell (Violin), A. Fraser (Dulcimer), H. Thomas (Piano), Messrs. Pearson, Low and Morris (Brass Trio), A. McCulloch (the modern Harry Lauder), J. Bessie (Bagpipes), and Slim Hally who kept the company in roars of laughter by his rendering of "Christopher Columbus".

Also, all good things come to an end, as also did the Quoters' smoker, but it was with sighs of regret.

The Committee wish to thank the storekeepers of the town for their donations.

The Quot ground will be extended to 3 rinks this year, so roll up and get your membership tickets. A general meeting of the Club will be held on Sunday April 24th, at 3 p.m., in the basement of the Grand Union hotel. Business: Election of officers for the season 1927.

## United Church Notes

Very reasonable and helpful services were conducted on Easter Sunday by Dr. Ferguson, of Calgary. While in town the Dr. was a guest at the Manse.

For the coming Sunday, Rev. Mr. Oliver of Bellevue, will be in charge for the morning service. In the evening the minister, Rev. H. J. Bavan will resume his duties and will preach upon "Some Thoughts Following Easter."

A feature of last Sunday evening's service was the solo sung by Mr. Haysom. Mr. Haysom should be heard often. Dr. Ferguson was much struck with the quality of the congregational singing.

The club rooms are this week in the hands of the decorators undergoing a much needed beauty treatment after the wear and tear of a long hardy winter.

Mrs. D. A. MacKinnon, of Kimberley, who has spent the past week the guest of Mr. and Mrs. N. MacKinnon in Coleman, returned home on Wednesday.

## Local Dogs Capture Prizes At Lethbridge Kennel Show

One Coleman bred dog, Cesar Gregory, captured three firsts and a reserve prize, and another dog owned by a Coleman resident also won three firsts and a special at this Lethbridge Kennel Show on Friday last.

Cesar Gregory, owned by C. Bolton, of Lethbridge, is a full brother of two Irish Water Spaniels owned by Mr. Sidney Rhott, of Coleman, and was bred here, while Sarcee Tam o'Shanter, a Gordon Setter, is the property of Mr. H. C. McBurney. The prizes won by these two dogs are as follows:—

## Irish Water Spaniels

Puppy dogs—1, C. Bolton's Cesar Gregory.

Novice dogs—1, Cesar Gregory; 2, Dock Rogers' Barney; 3, Kaini Kennel's Frank.

Limit dogs—1, Cesar Gregory; 2, Barney; 3, Geo. Rowe's Boy.

Open dogs—A repeat.

Winners—Cesar Gregory.

Cesar Gregory awarded lamp donated by Bonfadini's for best Irish Water Spaniel.

## Gordon Setters

Novice, limit and open dogs—1, H. C. McBurney's Sarcee Tam o'Shanter.

Winners—Sarcee Tam o'Shanter.

Sarcee Tam o'Shanter awarded auto jack from Southern Alberta Tire and Rubber Co., best of breed.

## THE MAIL BAG

April 18th, 1927

Editor Coleman Journal,  
Coleman.

Dear Sir:—

I have been instructed by the sports committee of the Coleman Miners to request the use of your paper as a means whereby we can intelligently place before the public our position relative to the sports being held on July 1st and 2nd.

When the project was first considered six weeks ago, it was the sole intention of the Miners to promote a Sports Day on July 1st, entirely for the benefit of the children, and it was along those lines that we began making preparations, and our one and only reason for selecting July 1st was because we considered it the most logical time to hold anything where children were concerned.

Since then we learned that there was a possibility of July 2nd being also a public holiday and we decided to augment our program to include that day too, by providing entertainment for the adults.

Again, it was brought to our notice that we had selected a day that would be receiving the attention of every city or town in the entire Dominion, namely, The Jubilee of Confederation, and again we altered our plans so as to give our Celebration that aspect.

Since we have gone so far to meet each occasion as it developed and as there is a strong sentiment prevailing that we should go still further, I am authorized by the Sports Committee to state that should any organization, fraternal or otherwise, have any concrete suggestions to offer, that they submit them to the Committee and they will receive their careful consideration.

One matter, however, we wish to make clear is this, that we cannot commit ourselves in any way as to how a surplus, if any, will be used, as this is a question entirely in the hands of those who have contributed to the fund that is being used for this purpose to decide.

I am respectfully yours,

D. Gillespie,  
Secretary.

## Another Success

### Public Preference Endorses the New and Finer Pontiac

ALREADY you see on the highways the evidence of the popular acclaim with which the New and Finer Pontiac Six is being received. Already enthusiastic owners by the thousands are wholeheartedly endorsing this unusual car—are praising its arresting beauty, its long, low lines, its fleetness, its countless new refinements, its up-to-the-minute completeness. Even their most optimistic expectations have been more than realized in the New and Finer Pontiac Six.

If you have not seen and inspected the New and Finer Pontiac Six at close range—if you have not investigated the new, lower prices which are making Pontiac Six the outstanding car value of its field—you owe it to yourself to do so without delay. For, in the New and Finer Pontiac Six, General Motors presents its latest achievement—its answer to the need for a truly fine, low-priced six-cylinder car. You are invited to come in and see it for yourself.

A Coleman lady had gone to Calgary, and had telephoned that she would not be returning until the following day.

When she got back she said to her husband, "you managed to find something to eat last night, didn't you, dear?"

"Oh, yes," he replied cheerily. "I had the steak that was in the pantry, and tried it with some onions I found in the cellar."

"Onions!" she gasped. "Darling, you've eaten my Gladioli bulbs!"

One of the mysteries of "Facing the Music" is the miraculous escape of Miss Pothering of the Bijou Theatre from death or worse. While returning from the theatre she was the victim of a daring robbery in the fog and only through a fortunate sequence of unforeseen events escaped with her life. How this was accomplished will appear in the production of the play at the Grand Theatre.

### Here and There

Alberta is now the largest producer of oil and gas in Canada. In 1925 the production of gas amounted to approximately 9,000,000 thousand cubic feet, and the production of oil 183,000 barrels.

Louis Kon, trade delegate to the Union of Soviet Socialist Republics, confirms the report that an order for \$1,000,000 worth of binder twine has been placed with a Brantford firm. Other large orders for Canada are pending.

During the season of 1926 over 36,000 square miles of mineralized areas in the Dominion were mapped out by means of aerial photography, according to the Department of Natural Resources at Ottawa. This is one of the most important uses to which aerial photography has been adapted.

A bill to establish a fish, game and wild life sanctuary in the interior of Nova Scotia has been passed in the Legislature. The sanctuary is to be located at the intersection of the counties of Annapolis, Digby, Yarmouth and Shelburne. Others may follow in other parts of the province in the near future.

A large single shipment of motor oil, a solid trainload of 26 cars of Marvelub, left Sarnia for various points in the west, but mostly for Vancouver. The oil is a Canadian-manufactured product which has been developed within the past year. At Fort William the special train was handed over to the Canadian Pacific Railway for exhibition along its lines.

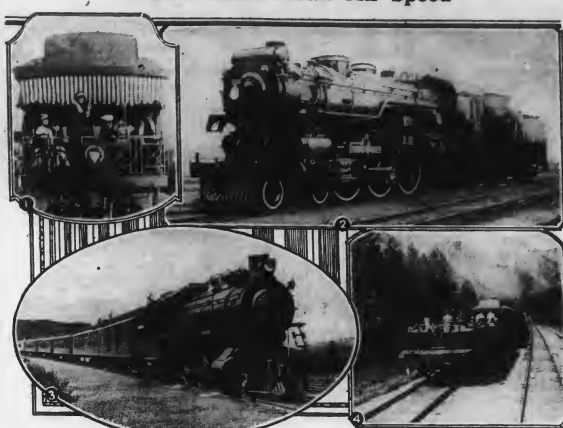

Announcement of the offer of two scholarships annually by E. W. Beatty, chairman and president of the Canadian Pacific Railway, and Chancellor of McGill University, to the first male candidate in Greek and Latin, and to the highest male candidate in mathematics entering the University, was made recently by Sir Arthur Currie, principal of McGill. A prize of \$500 is attached to each scholarship.

According to the department of Colonization and Development of the Canadian Pacific Railway, there is every indication that there will be a great increase in the number of immigrants coming to Canada this year compared with the year being located during 1926. It has been estimated that immigration figures for this year will be almost double those of the past year. Since the first of the present year Canadian Pacific liners have brought to Canada approximately 15,000 new settlers.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, announced from headquarters recently that the name of the new hotel now being erected at Regina would be "Hotel Saskatchewan." The new C.P.R. hotel at this place will be an eleven story structure containing 284 bedrooms with bath and will cost in the neighborhood of \$1,500,000, the opening being scheduled for May 24. The hotel is being built on one of the finest sites in the city on Victoria Avenue, facing the park. It will be only within a few minutes' walk from the C.P.R. Station.

The Canadian Pacific Railway made an excellent showing in 1926 gross revenue for the twelve month being the best shown since 1920 while net revenue was the best shown since 1917, being nearly 4% million ahead of the fine record of 1925. In gross earnings from railway and lake steamers the year resulted in a very notable increase over the preceding fiscal year, the showing being one of the best on record, while income from special sources, including ocean steamers held up well, being only slightly below that of 1925, and also being one of the best exhibits ever made by the company.

## Where Steam Beats Air Speed

1—Seeing the world from the rear of the Trans-Canada. 2—C.P.R.'s most powerful locomotive will haul the Trans-Canada. 3—Through the scenic route of the Rockies. 4—Open air observation car a feature of the mountain journey.

Beating the air mail's record in carrying mail across the continent is not in the regular scheme of things for the Trans-Canada the Canadian Pacific's stellar summer transcontinental train. The facts of such an incident are brought to mind through the announcement from headquarters of the Canadian Pacific that the Trans-Canada will again operate between Vancouver, Toronto and Montreal from the middle of May till about the end of September. Such a record was made in the middle of last July and was unintentional. By a coincidence letters were forwarded to one of the officials in Montreal by air route and by the Trans-Canada both being stamped at approximately the same hours and date. From comparison it was shown that the letter forwarded by train arrived about 30 hours ahead of the air route letter.

This ground of the steel rails has within the few years of its operation, become widely popular among travellers from all parts of the world.

In planning the service instituted by the Trans-Canada, the officials

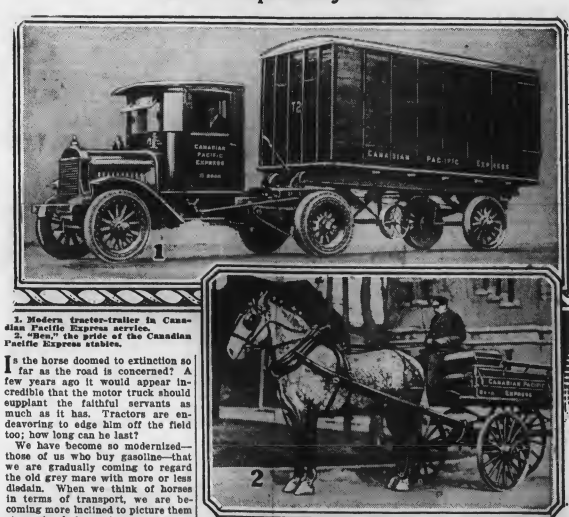

of the company bore in mind many details that afford comfort and convenience to the traveller. It takes this great train only 80 hours and 15 minutes to run between Montreal and Vancouver and about three hours less from Toronto. The schedule has been so arranged that the train arrives and departs from the principal business centres across the continent at suitable hours. The traveller who wished to make best connections at Atlantic and Pacific ports have been kept in mind; and the vacationist wishing to reach his beauty spots quickly and at convenient hours. In arranging for all this the schedule of stops has been cut to a skeleton, making the journey all the more enjoyable. The train, with the exception of certain connections to parlor car passengers, carries only sleeping car passengers.

The route of the Trans-Canada is the track of Canadian history. From the scenes of Indian fights and international feuds in the province of Quebec, via the route of the French explorers and fur traders in Ontario; round the north

shore of the Great Lakes to Winnipeg, once the Fort Garry of the Hudson's Bay Company, then across the prairies which have not yet ceased to echo with the war-whoops of the now peaceful Indians; through the Rockies with their memories of Fraser, Macdonald, Palliser and Rogers, and down at last to Vancouver which was once furrowed by the keels of the Spaniards. The Trans-Canada links the whole.

One of the features of the Company's up-to-date equipment used on this train is the new locomotive of the well-known 2300 class. The 2-3-4 type, the very latest model which will be used in the most powerful of the Company's engines. The equipment is all-steel throughout, the standard sleepers being of the latest design and luxuriously appointed. In the compartment-observation car one can sit at ease and watch the whole panorama of the Dominion roll by. When the train climbs into the mountains a special open air observation car is attached and in this one can gain an unrestricted view of the passing grandeur.

## Vie For Supremacy of Road

1—Modern tractor-trailer in Canadian Pacific Express service. 2—"Ben", the pride of the Canadian Pacific Express stables.

Is the horse doomed to extinction so far as the road is concerned? A few years ago it would appear incredible that the motor truck should supplant the faithful servants as much as it has. Tractors are endeavoring to edge him off the field too; how long can he last?

We have become so modernized—those of us who buy gasoline—that we are gradually coming to regard the old grey mare with more or less disdain. When we think of horses in terms of transport, we are becoming more inclined to picture them staggering before a junk wagon or haltingly mobilizing a caliche or cart, these beasts of whom so much has been written, whose devotion and faithfulness has inspired poets and artists. J. E. Coulter, assistant to the vice-president of the Canadian Pacific Express Company, gave us a shock recently. He drew a card which is paid for, uses considerable of the company's gasoline and had just completed the purchase of six new trucks—beautiful things of which he is very proud. "The horse," he said, "the horse will never be altogether replaced on the road, and I will live to see the day when he will replace some of the trucks." And then he waxed eloquent. We could see that he had been born fifty years earlier—"Ben" is a very young horse, the Canadian Pacific would have had some of the "fattest turnouts" possible. Coulter has over two hundred motor vehicles to keep close record

of, but he says that his company will only replace a horse where it is proven that as actual economy will be effected. "On long runs, where two horse wagons have not quite enough work to keep them both busy a motor vehicle will perhaps be more economical, but one motor vehicle, he said, will not economically replace one horse in our service, and particularly in congested areas where many stops must be made. This from a man who lives by efficient transportation.

Mr. Coulter believes that part of maintenance of horse-wagons and other vehicles should be charged to advertising. That is why one never sees one of the vehicles under his direction in need of a coat of paint. He has been able to keep his stables too, that pride of horse-flesh that was almost a feature of his fifty

years ago. Not all of his horses are young ones, but most of them have a record of some kind or another, and when they are finished with express service, they are given the life of ease they have earned. In the Toronto stables is one horse of which the whole organization is exceptionally proud. "Ben" Coulter will tell you about this fine grey gelding and of how he compares with the late "Margie". The champion "Ben" joined the service of the Canadian Pacific Express Company three years ago and has worked eight hours a day since. In 1924 he took first prizes in the July parade and the Royal Winter Fair. At the last Royal Winter Fair he took all honors again. Another "Margie" is the judge. The horse will never be ousted, at least from the hearts of the express men.

## Where Canada Leads the World

Canada exports more wheat than any other country in the world. It produces more of the world's supply of nickel. Within the last two years it has passed the United States in the production of newsprint and is now the greatest exporter in the world. Isolated facts, such as these, are becoming common knowledge amongst Canadians, but it is doubtful if, as yet, they fully appreciate the gigantic strides made by the Dominion in gaining a position of first importance among the trading nations of the world.

The Jubilee year of Confederation is a good time to take stock of our national achievements, not that we should become boastful as a people, but as an encouragement and an incentive to still greater things. It has been charged that Canadians suffer from an inferiority complex; that we are more inclined to belittle our country and its possibilities, than to boast of them; that, as a consequence, we are apt to entertain doubts and be fearful of the future instead of confident and courageous.

It is a good thing, therefore, to sometimes get a glimpse of ourselves as others see us. There is inspiration in such things, as the following:

The National Foreign Trade Council of New York, in a recent statement, says Canada has led all nations in increase of exports trade since 1913, with an increase of 55 per cent. as compared with Australia's 45 per cent., and 31 per cent. for the United States.

The League of Nations Bureau recently filed a report showing that Canada's per capita wealth had grown from \$1,100 in 1902 to \$2,400 in 1926—a record unequalled by any other nation in history.

The National Bureau of Research of the United States recently published the results of 17 years' trading, showing that Canada had proved more prosperity than any other nation.

During the years covered by these statements, the Western Provinces of Canada have been transformed from being a vast area, with a sparse population and a meagre production, into a community of over two million people and with an agricultural production of such magnitude as to command the attention of the whole world, and constituting a factor to be reckoned with in all the world markets.

The development of the West has had its effect on the rest of Canada, as is well recognized, but Western people possibly do not fully appreciate the rapid growth and development which has taken place in the other provinces in the east. Manufacturing production in Canada has grown from 214 millions of dollars in 1901 to 1,211 millions in 1925, and in export of manufactured products expanded in the same time by 2,729 per cent. Today Canada exports some millions of dollars worth of manufactured goods more than she imports, a complete reversal of the situation as recently as five years ago.

Canadian manufacturers are beginning to profit from the lessons of the past. They realize that the people of Canada as a whole will not stand for protective tariffs so high that they are prohibitive, and that the tendency is in the direction of lower rather than higher tariff. They now know they must rely on something more than a protective tariff to ensure success and make profits. As a result they have scrapped much obsolete machinery, have adopted improved manufacturing methods, have not only cultivated the home market better through the giving of retail service, but they have aggressively entered foreign markets and have built up a world-wide export trade. All their eggs are no longer in one basket.

They are beginning to appreciate the wisdom and strength of a Canadian policy of negotiating trade treaties with other countries, and to recognize and accept the fact that international trade cannot be all one-sided; that, in a word, if Canada is to sell largely in foreign markets, she must, in turn, buy in those markets. Canadian manufacturers and financiers are also, to an increasing extent, investing in the development of the natural resources of the Dominion instead of relying on the importation of raw and semi-manufactured materials which the Dominion itself can supply.

It is because of a growing recognition and application of these truths that Canada is today leading the world in the growth and development of external trade.

## Empire Mining Congress

Delegates From All Parts of the World to Meet in Montreal

Nearly seven hundred delegates have registered at the Montreal headquarters for the second Triennial Empire Mining Congress which is to be held in Canada, August 22 to September 25 next. Great Britain is sending 300 delegates of both sexes and United States about 100, India, the Federated Malay States, Palestine, most of the different countries that make up the Continent of Africa, Australia, New Zealand, Tasmania, and all the principal European countries will be represented. The Canadian Institute of Mining and Metallurgy is the convening body for the Congress.

## Norte Convention

Arrangements are already under way for the big Norte convention to be held in Winnipeg next year. Preliminary estimates of the attendance places it at 25,000.

If it runs head as many wives as Solomon in would wonder if some other one wouldn't have salted him better.

## No Disfiguring Blemishes to Hide

If Cuticura Soap is used daily, assisted by Cuticura Ointment when necessary. They do much to prevent blackheads, pimples and other unsightly eruptions, and to promote permanent skin health.

Sample Box Free by Mail. Address: Cuticura Products, Montreal, Que., Canada. Price, 50c per box. Ointment, 25c per tin. Cuticura Shaving Stick, 25c.

## More Hungarians Will Emigrate to Canada

New Settlers Are All Accustomed to Farm Work

From March of this year until October, the number of Hungarian immigrants to be settled in Western Canada by the Canadian Hungarian Colonization Board will number about 2,500 according to Dr. J. Ujvary, Winnipeg, president of the Board.

Hungary, like Canada, is an agricultural country, Dr. Ujvary explained, and the immigrants that are brought out here are all accustomed to farm work. "The farmers here report to the Board the number of laborers they require and the order for that number is sent to Hungary," Dr. Ujvary said. Since the year he explained, most of the Hungarians who came to this country were very poor and could not think of buying land at first. They were therefore placed on farms as laborers until they earned sufficient money to start out for themselves. Occasionally, the doctor said, a man came with some capital and wanted to start his farm.

## Wheezy Chest Colds Subdued Over Night

Trained Nurse Tells How Colds Are Quickly Broken Up

## NERVILINE

A Home Necessity

Speaking of valuable home remedies that every mother should always keep on hand, Nurse Carrington says: "I haven't met any preparation more dependable than 'Nerviline.' It is the ideal liniment for colds, coughs, and chest troubles. It is absorbed quickly, and it relieves even a severe cold in a short time. For chest colds, pain in the throat, and earache, and toothache, I have found Nerviline invaluable. In treating the minor ailments of every home, Nerviline is more efficient than any other."

For nearly fifty years Nerviline has been a household article in thousands of Canadian homes. Get a 50c bottle today.

## Latest Development

## In Plastic Surgery

Entire Upper Eyelid Grafted on Cheek of Patient

Use of eyelids to repair facial defects is one of the latest developments in plastic surgery. Dr. J. Pastman, Surgeon of the New York Post-Graduate Hospital, speaking before the convention of the American Association of Oculic and Plastic Surgeons, told of an operation in which an entire upper eyelid was grafted in a hole in the cheek of the patient, thus insuring skin of the same pigment and quality as that of the rest of the face. For several months following the operation, Dr. Pastman said, it is impossible for the patient to close his eyes but gradually the eyelid stretches and drops, resulting virtually in the formation of a new eyelid.

## MOTHERS PRAISE

## BABY'S OWN TABLETS

Mrs. J. M. Brown, Watson, N.S., says: "I cannot recommend Baby's Own Tablets too highly. I have tried them invaluable for the ailments of little ones. Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure chance that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative, mild but thorough in action, which never fails to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. In fact you banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"My friends," began the applicant for public office, addressing his first audience, and in his own town. "I call you friends! I will not call you 'ladies and gentlemen.' I know you too well for that."

Miller's Flower Powders destroy worms without any inconvenience to the child, and soothed the pain from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Flower Seeds From the Old Land. British settlers will be provided with flower seeds from the Old Land through the kindness of the "Hon. Lady Cecil, it is announced by Walter S. Woods, superintendent of the Lands Settlement branch of the Alberta district. In making this arrangement through the Royal Horticultural Society, Lady Cecil is carrying out a promise she made in Western Canada last year.

W. N. U. 1677

## Rural Land Values and Rural Credit

(By C. W. Peterson)

Canada is the only important agricultural country in the world without a rural land credit bank. This situation has a distinct bearing on the colonization of our vacant lands. Across the line the Federal Land Banks supply rural mortgage funds on a basis of 6 per cent interest on long term repayment. This system is in an extremely healthy condition there and it is difficult to see how Canada can appeal to United States farmers to settle in this country, without being in a position to offer them similar economic facilities for long term credit.

A commission recently made some investigations into systematized rural credit machinery and in the final report stated that "the whole plan for a method which would not encourage speculation in land, but one which would encourage farming more attractive to those who were eager to work." The acceptance in other countries of the long-term land mortgage system with amortization provisions, has been a most valuable factor in the closer settlement of land. It has reduced charges for interest, given security to both mortgagor and mortgagee, and by its tendency to stabilize land values, has discouraged land speculation. The stabilization of land values is one of the by-products of a rational, rural land credit system. Incidentally, it is also one of the crying needs of the western country, where the extraordinary fluctuations of land values has done more to demoralize agriculture than all other causes combined.

## One Man Will Control Ship

Modern Equipment to Operate Large Diesel-Electric Vessel

Without using a ship's telegraph or giving a single order to any other individual, one man will be in complete control of the world's largest Diesel-electric ship which is to be built on the Clyde at the yards of Scott's Shipbuilding and Engineering Company, Greenock.

On an all-silent 12,500-ton ship, far the biggest Diesel-electric ship yet ordered. The engines, instead of driving the propeller directly, will do so through a remarkable electric mechanism which is to be built by the British-Thomson-Houston Co., Ltd., Rugby. Full control of the ship is invested in two pieces of mechanism on the bridge. By moving an arm toward the world's largest Diesel-electric ship which is to be built on the Clyde at the yards of Scott's Shipbuilding and Engineering Company, Greenock.

## Advices Canadians to Go North

Minister of Railways Says Country Developing in That Direction

That Canada's development within the next 25 years will be northward is the opinion of the Hon. Charles A. Dunning, Minister of Railways and Canada, expressed recently in address to the Liberal Women's Association of Ontario.

"Go north, young man, is the slogan of the future," said Mr. Dunning, "and the people of Canada and with the trend north in almost every province of Canada. In going north today there is being discovered and developed resources otherwise unobtainable. The northward trend," he said, "will produce an ever-widening opportunity for young Canadians, is closing the gap between the East and West, and will tend to balance the economic value of Canada as a whole."

"Canada needs diversity of occupation," continued the Minister, "and an opportunity for the product of our schools and universities."

A special trial of 40 cars recently carried 100 farm tractors direct from a Chicago factory to Roseworth, Sask., where 160 farmers of that district have taken delivery of one each.

It's better to be level-headed than flat-footed.  
Minard's Liniment soothes tired feet.

## "Should be in every home" Says Mme. Villemaire

Three years of stomach and kidney disorders wrecked her health. Now fully recovered and feeling splendid, she thanks Tanlac

Mme. Eliza Villemaire lives at 432 St. Patrick Street, Ottawa. She is a robust and healthy woman, showing no signs of the distressing condition which was her lot for three years. "No words can express what I suffered," she said recently. "At times I thought my mind must break, and I could not even stoop over to get the table."

"My stomach was just as laid, for food would be there like a lump of lead. I used to bleed terribly and at times could hardly catch my breath. Nervousness kept me awake half the night. I tried many remedies and treatments but nothing I spent a small fortune on them, nothing seemed to help me."

"I only wish I had taken Tanlac when I first started for I certainly would have saved me a lot of suffering. The way my troubles disappeared after taking it was almost magical. It built me up and made me a new being. Now my kidneys are never bothered, I am free from all pain and my digestion is splendid. I had my way I'd put Tanlac in every home in Canada. That's how much I think about it."

Don't neglect nature's warnings. At the first sign of trouble, take Tanlac, nature's own tonic, made from roots, herbs and fruit. It's a great health-giving tonic. Get a bottle today. Over 62 million bottles sold.

## Soundproof Room in London Ear Hospital

Silence Chamber Provides Ideal Conditions for Testing Deafness

In the basement of the new Royal Ear Hospital, London, which has been officially opened by Neville Chamberlain, Minister of Health, is a chamber which is unique in this country known as the "silence room." The walls, floor, and ceiling of this room are so constructed as to prevent any external sound, so that exact tests of degrees of deafness can be made in ideal conditions. It is claimed that the best if the heart and the flick of the eyelid, when quietly closed, can be opened, can be heard. In declaring the new hospital open Mr. Chamberlain said that a special form of treatment—namely, isolation had been particularly valuable in ear diseases. Sixty or seventy per cent. of school children could be shown to be capable of being cured if they received isolation treatment in good time.

Going fishing—take Minard's Liniment.

## An Unusual Idea

But Gear Shift on Locomotive Proves Economical

The idea of adopting a gear-shift for a huge locomotive is unusual enough to note. It is strange it has not been done before. The 35,000-horsepower locomotive now has it. It has been adopted in the construction of the newest electric locomotive which will haul Pennsylvania railroad trains, both freight and passenger. These monsters, with a driving axle loaded with 75,000 pounds, will of course not be regularly slowed down and speeded up by running through gears, as in the case of the automobile. The system works this way: Until now it has been necessary for a railroad to equip itself with a fleet of passenger locomotives and another set of freight locomotives. Now, however, to haul freight, the first set of wheels, the other slow but hard pulling and steady. This condition produces the same as in an automobile the "run fast on 'high' over gears, but put 'in low' when pulling up grade or through sand. So new locomotives, by a simple gear change, may become either passenger or freight engines as desired.—Bramden Star.

For distemper—Minard's Liniment.

Tramps never deliberately go to the dogs.

## Free Treatments For DEAFNESS

## Head Noises from Nasal Catarrh

### Hearing Restored

I have an original home treatment for deafness and head noises from nasal catarrh which I want every sufferer to try free—without obligation. For many years I suffered from nasal catarrh and head noises and head noises from nasal catarrh that I want every sufferer to try free. I want to prove to my expense that the remedy is quick and convincing.

### This Is FREE

I feel so sure that this treatment will restore hearing and end head noises from nasal catarrh that I want every sufferer to try it free. It is the best treatment I have found in 42 years' practice as eye, ear, nose and throat specialist.

Dr. W. O. Coffey

## 25,000 Treatments To Be GIVEN AWAY This Month

These treatments cost you nothing. The remedy is quick and convincing. You will feel the difference the first day. I have found that head noises are caused primarily by nasal catarrh. Inflammation of the nasal mucous membrane and many other troubles. Usually one ear is more affected than the other. The remedy is quick and convincing. My original home treatment is a free offer. If you are suffering from head noises or deafness, or if you are a woman, head noises are more common. For 25,000 free treatments, you can get a free trial. For 25,000 free treatments, you can get a free trial.

### TRY IT FREE

In addition, I will send you absolutely free my new book on Deafness, Head Noises and Catarrh. It discloses fully the scientific basis of my treatment. Write today for this free test treatment. If you are a man, head noises are more common. If you are a woman, head noises are more common. For 25,000 free treatments, you can get a free trial. For 25,000 free treatments, you can get a free trial.

## CHAPTER XXXIII—Continued

"Don't spend your wits in skin-mish-ming," she challenged him. "What is it?"

"He ignored her challenge for a moment while he lighted a cigarette, then offering her his platinum case. When he had evened his light to his satisfaction he went to the fireplace and dropped the burnt match into it. For another moment he puffed calmly. Then turned to face the girl, who looked back across the table in the corner of the room.

"Would you mind," he asked, softly, deliberately, "telling me what is your general impression of me? Not an analysis of my character, please, but an expression of the quality of your regard for me?"

"She replied without hesitation. "I have always distrusted you, but I have never been convinced that I was justified. If I hadn't feared you, I'd have liked you. As it is I am afraid I dislike you, at times, because I know you are dishonest—dishonest with me and with Yvonne who loves you. Is that the answer you want?"

"Not exactly, but it will serve. Suppose I should ask you to become my wife?"

"You used to tell me that you might do that, some day. I've always had an answer ready. I'd never marry you because I could never love you. If I could love you I wouldn't marry you because, by all the laws of decency, you belong to Yvonne, to whom you allowed to love you before you decided to laugh at her for her pretension that she would be worthy of you."

"He examined his cigarette flame, and then drew in his smoke.

"That establishes our position toward each other," he observed, and was silent for another interval. "But the situation is that you are going to marry me, never the less, because you will have to."

"She swayed. Her slender white hand went to her throat again. She knew he was not talking lightly. She had gone through one sort of battle with Kenneth; now, she sensed, she was at the beginning of another, and, in some unexpected way, a more desperate one. She waited for him to say on.

"He threw the cigarette into the fireplace and faced her across the table.

"Be pleased to understand the import of what I am about to say," he breathed. "You have wondered where your money came from, you have wondered why it was given to you. I

### Maybe This Contains A Hint For You

Mrs. Edward Jones

Anbrog, Ont.—"I have taken Dr. Pierce's Favorite Prescription and was greatly benefited by the use of it. My lady weighed 115 lbs. when born, I think this Prescription is the best remedy on the market and I hope it will help her poor woman the more as it did me. I can't say enough for the good work Dr. Pierce is doing."

"You'll soon feel better if you obtain this Prescription at your nearest drug store, in tablets or liquid, or send the Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pack of tablets."

W. N. U. 1677

Suddenly the girl's body stiffened. A bit of the brown came back into the eyes. Something of the secret returned to the outward life. She swung around slowly and walked firmly back into the room until she stood so close to Brandon that her body was almost against his.

"I want to keep my money, Frank," she said, her voice quivering, but soft and sweetly pleading. "I couldn't do without it now. But I am very much in love with someone else. Very much in love, Frank. And it's the kind of love you would never understand. I don't understand myself. Nor does he—the man, I mean, that I'm in love with. You'll be kind to me, won't you? You'll tell me why the money was given me? You'll tell me what I've done that's wrong, or that I shall not do it again? I'll be anything you say, if I may have my money, the money that has made life so beautiful—with money and my love."

"Anything I say?"

"Before his sudden thrusting back at her the pleading words, she shrank as if he had struck her. She turned again she heard him saying: "You may have your love, my dear girl. I would not interfere with that. I would not, for reasons and purposes of my own; not your love. I know the one you mean. I know the man to whom you've given the love that neither you nor he understands. Give it. Let him have it. Take him in return if you can win it. All of that shall be the bargain—a bargain of today."

"The morals of today, you know, and the conventions, are not what they were in the yesterday. You are not the girl of yesterday, nor your kind of love the sacrament that it used to be."

"I am asking you to be my wife—only. To give me yourself only. You may give your love where you like. It to be received and take whatever places you in exchange. Surely you, who have played the game of love, will not shrink before the flame you very essence know."

"Deep colors came and went across her face. She closed her eyes, and then opened them slowly, to quickly shut them.

(To Be Continued.)

### Great Seal of Britain

New Emblem of Royal Authority Is to Be Made

The passing of the Royal Titles Bill, whereunder the titles of His Majesty and of Parliament are changed to conform with views presented by the Imperial Conference, necessitates the provision of a new Great Seal, the specific emblem of royal authority. Any document to which the Great Seal is attached is the instrument by which the will of the Sovereign is declared, such as proclamations summoning Parliament, charters to towns, treaties with foreign powers, credentials to ambassadors, patents of nobility, and appointments of colonial governors.

The Lord Chancellor is responsible for the safety of the Great Seal, or rather of the moulds, and keeps them in a secret safe, where whenever it is supposed to be known only to himself, though history records the fact that during the reign of George III. burglars carried it off from the presence of Lord Thurlow, then Lord Chancellor. This is the only occasion on which a Great Seal is known to have been permanently lost.

The King himself may leave Great Britain without impugning the Constitution, but if the Lord Chancellor wants to go abroad elaborate arrangements have to be made for appointing a commission of responsible people to look after the Seal.

When a new Great Seal is made the old undergoes a process called "demasking." The King in the presence of the Privy Council, gives the old one a gentle blow with a hammer and it then becomes the property of the Lord Chancellor.

### Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Don Mills, Ont., writes: "Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just have everything and all done for me."

"I spent a lot of money using medicine from the doctor, but it did not do me any good.

"At last a friend told me to use and after using a couple of boxes of I was able to sleep and feel so much better, and I was able to do my own housework. I was in perfect health. I can now do my own housework and I can now do all the things I want to do."

### We Wouldn't Go That Far!

We wouldn't say that Wrigley's has a place at the wedding ceremony, but in times of stress or when you have a mint order to face—use Wrigley's new DOUBLE MINT—it's real Peppermint.

### Loneliness of the Great

Cares of Responsible Position Crowd Out Intimate Associations

Premier Baldwin of Great Britain has joined the silent band of lonely men, announcing in a recent speech that with the passing of years he feels extremely lonely. Herrell, Gladstone, Lincoln, Napoleon, Cromwell and Carlyle all voiced this sentiment. Milton was a lonely figure while writing his greatest works. These makers of history, Mussolini and de Rivera, are pitiful in their loneliness, for the cares of state have crowded out of their lives cherished associations. — Kingston Whig Standard.

### Sufferer With Severe Backache Finds Relief

Mrs. A. Wilcox Used Dodd's Kidney Pills

Saskatchewan Lady Suffered With a Very Severe Backache. She writes: "My back was so lame that I would hate to move out of a chair when I was sitting down. They were so sharp pains that I had to take a box of Dodd's Kidney Pills and have not been bothered since."

The satisfaction Dodd's Kidney Pills are giving as a remedy for kidney trouble is shown by the large number of people who keep them always at hand. They have learned that the proper way to avoid serious trouble is to keep the kidneys in good health. Dodd's Kidney Pills act directly on the kidneys, healing and strengthening them, they enable the kidneys to strain all impurities out of the blood.

Obtainable from all druggists, or The Dodd's Medicine Co., Ltd., Toronto.

### The Famous "Waterloo Ball"

Function Took Place Two Nights Previous to Battle

H. Oldfield Bow writes in John O. London's Weekly: "Lady Augusta Fane's book of reminiscences, 'Cathart', contains a story which there was no ball on the night before Waterloo. The function generally known as 'The Waterloo Ball,' took place not on the night preceding Waterloo, July 17, but on the night of the 15th. The name is justified, however, because the battle of Quatre-Bras, which opened the Waterloo campaign so far as Wellington's army was concerned, was fought on the following day. The dance was held at the lodgings of the Duchess of Richmond at Brussels, and the duke himself was present."

### Tomb Fifty Centuries Old

Found in Egyptian Ruins and Contains Many Unique Features

Discovery of a tomb estimated to be five centuries old, dating back to the third dynasty of the ancient Egyptians, has been announced. The discoverers say it may be the earliest tomb ever found in Egypt.

The find was made by Cecil Pirih, who has been conducting excavations in behalf of the Antiquities Department of the Egyptian government, at Sakkarra, a village near the ruins of Memphis. Near Sakkarra is the famous Step Pyramid, believed to be the oldest of the Egyptian pyramids. The tomb is said to contain many unique features.

"And so, you see, children, it's night in Australia now," concluded the teacher.

Then Dobble inquired: "Is it late, night or tomorrow night?"

Polltiness sometimes beats the dollar under the wire.

Kill wants with Minard's Liniment.

### Occupies Envidious Position

Troubles Concerning Canada Small Compared to Those of Other Nations

Everywhere save in Canada there seems to be unrest and uncertainty. Such troubles as those which concern the Canadian people are indeed as nothing in comparison with those which afflict the older and more congested countries of the world. We have our little domestic squabbles and our little sectional grievances, but they do not amount to much. It is many, many years since any great disaster has overtaken Canada. We have no volcanoes to fear, and all the minor earth shocks, that we feel have their origin thousands of miles away. We are at peace with our neighbors and with the world. We have all of the territory that we want and would not know what to do with any more than that we might acquire. We live in no fear of aggression and we do not require the services of a large standing army to maintain our frontiers.

### Little Helps For This Week

If we confess our sins, He is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness.—1 John 1:9

What better can we do than prostrate fall Before Him reverent, and there confess our manifold iniquities?

Humbly our faults, and pardon beg With tears Wailing the ground? —John Milton.

Every man has two angels,—one on his right shoulder, and one on his left. When he does good, the angel on his right shoulder writes it down, and seals it, because what is once well done is done forever. When he does evil, the angel on his left shoulder writes it down, but does not seal it. He waits until midnight. If, before that time, the man bows his head and says, "Gracious Allah! I have sinned; forgive me," the angel rubs it out; but if not, then at midnight he seals the record, and the angel upon the right shoulder weeps.—Perran.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

### Moved Half Mile in Ten Years

Largest Fresh Water Lake in South Wales Creeping Northward

The Phantom Pool of Kenfig is on the move again after a rest. The pool, the largest fresh water lake in South Wales, has moved nearly half a mile in the last ten years, and is creeping northward toward Kenfig Hill. It has been calculated that it will take less than forty years for the water to reach the nearest village in its line of advance. Some farmers are worried about their property, the superstitious are alarmed, but scientists say the lay of the land is the same.

One swallow may not make a summer, but a pin maliciously inserted in a chair will make one spring.

THURSDAY, APRIL 21, 1927

## EDITORIAL NOTES

The main thing to keep in view in connection with Coleman's Diamond Jubilee Celebration on July 1st and 2nd, is to give all who attend a right jolly time during those two glorious days. July 3rd or any time after that will be early enough to decide upon if it is to be done with the "surplus." If the committee in charge can then locate in Coleman more deserving cases of charity than the Swimming Pool and Crystal Rink, let the most deserving get it.

Apparently, if insurance statistics are any guide, Canada's liquor laws are preferable to the prohibition enactment in the United States. In the past five years there were 2,295 deaths from alcoholism among the 17,000,000 industrial policy holders of the Metropolitan Life Insurance Company. Of these 2,270 occurred among approximately 16,000,000 persons living in the United States and only 25 among 1,000,000 Canadians.

Of words which have developed so as to have a modern political meaning none is so often mispronounced as Fascist. The correct pronunciation is "Fa-shi-tee," with the accent on the second syllable. It is derived from the Latin "fascia," which signifies a bandage, that in turn being derived from the "fasciae" of ancient Rome.

It is provoking to have an automobile driver "honk" his disappointment at having missed you.

There is no evidence that the calamity which befell Samson menaces the modern booby.

A Coleman Scotchman has offered \$25,000 to the first person to swim the Atlantic Ocean.

Thoughtful parents are those who try very hard to live up to their children.

Religion has failed of its purpose if it is only a means to bigoted opinions.

Happy is the man who is too darned busy to feel sorry for himself.

It is almost time for the spring poet to see his shadow.

### Endeavoring To Increase Canada's Export Trade

Hon. James Macdonald, minister of trade and commerce, has taken hold of his department in a very business-like way. He is applying to the problem of increasing Canada's export trade the same business principles and methods which he has successfully used in his own business.

In Hamilton recently, he gave figures in detail showing that with the total British possessions outside of Great Britain, we are doing a business of \$90,000,000, while the United States are doing a business of \$380,000,000.

In all these British possessions as well as in Great Britain there is a voluntary preference for goods produced within the empire.

To take full advantage of this good will we must make known what we have to sell.

Mr. Macdonald should ask parliament for two things:

(1) Increased appropriation for establishment of additional trade commissioners in important centres.

(2) An advertising appropriation of at least \$250,000 to be spent in foreign countries in conjunction with associations who are prepared to guarantee the quality of their goods, and who are prepared to appropriate an amount of money equal to that contributed by the government.

Increased export business means increased labor and a bigger home market. This will benefit all classes of people and all districts.

Ottawa—Work of transforming the buildings at Lansdowne Park for the World's Poultry Congress to be held from July 27th to August 4th is proceeding apace under the direction of Mr. J. C. Turcotte, Canadian Exhibition Commissioner, who is assisted by a capable staff. Those who have visited Central Canada Exhibitions on previous occasions will not recognize the interiors of the various buildings. Mr. Turcotte is out to show the people of his own country that the praise lavished on Canadian exhibits at exhibitions in other lands was not misplaced, and is taking a special pride in his present task.

Canadian inventors are well known in the manufacture of a new pigment called "Titanium White" to be used in the same way as white lead according to R. H. Monk, of Montreal, who states that plans are nearing completion for the erection of a plant in Montreal, and, if everything develops as expected, this plant will be set up in the autumn. The development branch of the Department of Colonization and Development, Canadian Pacific Railway, has been active in furthering the establishment of this industry.

The World's Poultry Congress to be held at Ottawa July 27th to August 4th next is to be a big affair in every sense. Floor space will be more than 200,000 square feet; the national educational exhibits utilizing 55,000 of that footage. There will be approximately 10,000 live birds on exhibit, of every breed and variety. Commercial exhibits will be a main attraction and one firm making incubators has already contracted for 7,000 feet. Among the European countries that have decided to take part in the Congress are: Germany, Roumania, Italy, Russia, Denmark, Poland, Belgium, Holland, Spain and Latvia.

Skiing in the Laurentians is becoming ever-popular in Quebec. To cope with the greatly increased traffic of winter sports lovers the Canadian Pacific Railway Company are operating special trains into the mountains during the week ends, from January 9 to March 13. Canadian winter sports are attracting a great number of Americans of late. This was evidenced by the in-rush of visitors at the Chateau Frontenac at Quebec city, who came across the border during the Christmas and the New Year's season.

Beaver trapping will be permitted, under an order-in-council just issued, throughout the upper part of the province of Alberta, north of the 55th parallel. Within these bounds the close season, which now holds for the whole province and for the whole year, will be opened for four months, January 1 to April 30.

The classic dog sled derby of the East is drawing near. On February 21, 22 and 23 some of the most famous huskie teams in America will battle for supreme honors at Quebec city in the Eastern International Dog Sled Derby. The total distance of the race is 150 miles. Cruelty to the dogs during this hard grind is eliminated owing to the fact that the rules require that any dog unable to finish the race must be carried on the dog sled to the finishing post. The first prize is \$1,000 cash. A grand masquerade ball at the Chateau Frontenac, the general headquarters of the winter sports season, will be the finale of the Dog Derby.

## FOR SALE

Singer Sewing Machine \$25.00, Knitting Machine, cost \$90.00, for \$40.00, Sideboard \$25.00, Large Mirror \$15.00, Toilet Set \$4.00, and several other household articles. Apply to C. Cnlabor, West Coleman.

Miss C. Allan who scored such a success in "Mrs. Temple's Telegram" will appear in "Facing The Music" at the Grand Theatre on May 4th. Those who had the privilege of seeing Miss Allan in her former role will be glad to hear that in her new part she has greater scope for her undoubted ability as an actress.

## Here and There

Toronto capital will develop the only known blue talc deposits in Canada, the bed located about ten miles southwest of Banff. A private company, adequately financed, has been organized, and it is said that development operations will begin at once. While talc deposits are also found in association with the blue talc.

To replenish depleted British Columbia herds a carload of mountain sheep from the Banff National Park and another of elk from the Wainwright Park are being brought in to the province and will be released in the mountains near Spence's Bridge, according to M. B. Jackson, chairman of the Provincial Game Conservation Board.

In order to establish a model settlement just outside Winnipeg, a party of Catholic colonists sailed on the Canadian Pacific liner "Marloch" for Saint John and reached Winnipeg in charge of Father Keirdorf, of the German Catholic Immigration Association. The party consisted of about 30 families and came under the direction of the Canada Colonization Association.

Included in the programme of new construction in the Manitoba district of the Canadian Pacific Railway is the building of new standard station houses to be located at Vipula, Toulon, Peterfield, Kemnay, Alameda, Pettapiece and Dominion City. New section houses will be built at sixteen points in the Manitoba district while a mechanically operated coaling plant with a capacity of 100 tons will be built at Poplar Point.

Saint John Nelson Christananda, describing himself as a Christian Apostolic Preacher, and originating from Southern India, arrived in Canada recently on the Canadian Pacific liner "Montrose" from England. He is a "Sadhu" which translated signifies a Saint and is conducting a short mission of about two months in Canada. Mr. Christananda stated that he had been preaching through Europe and had visited about twenty countries on that continent. His creed, he asserted, associated with all Christian churches without being bound down by any dogmas. He said he was welcomed by all religious organizations.

A consignment of Canadian manufactured ice cream shipped from Saint John about the middle of last month featured the menu of a banquet tendered to over 400 British buyers by the Hon. P. C. Larkin, Canadian High Commissioner in London. On account of the large Canadian representation at the banquet the Commissioner ordered the cream through the Purity Ice Cream Co. in Montreal, and was handled during its 3,000-mile journey across the Atlantic by the Canadian Pacific Express Company. A ton of ice was placed aboard the C. P. liner "Minnedosa" to insure its arriving in perfect condition.

Details of the British Government's exhibit at the World's Poultry Congress, to be held at Ottawa, July 27th to August 4th next, have been received by the Congress committee. Heading the list of exhibitors from Great Britain is His Majesty the King, who has signified his intention of exhibiting pigeons, while H.R.H. the Prince of Wales is sending along some chickens from his famous farm in Cornwall. The British exhibit will consist of models of the poultry farms of Lord Dewar and Tom Barron, two of the best known poultry breeders in England. Hon. Miss Florence Amherst and St. Dunstan's Hostel for the Blind, are also participating. The British representation will include many technical features. Official British delegates to the Congress are Sir Francis Flood, permanent under-secretary to the Ministry of Agriculture and Fisheries, and Percy Francis, Poultry Commissioner to the Ministry of Agriculture.

## MAY APPOINT A BRITISH ENVOY TO DOMINION

Ottawa—Great Britain may appoint a representative to Canada to act in about the same capacity to the minister who has been appointed from the United States, Premier W. L. Mackenzie King stated in the House of Commons. The Prime Minister said that a British representative would probably be "a high commissioner to Canada."

Premier King's announcement came during his explanation of an item in the estimates of \$8,000 for a secretary to the prime minister. The premier stated that he wished this item voted for an executive secretary. Some misunderstanding had arisen over the term "secretary." He would like to point out, he said, that the prime minister was the only minister who had not a deputy minister. His only assistant was from the prime minister's office. Premier King added, had now increased so that it was imperative in the public interest that it be organized on business-like lines similar to other departments.

Premier King referred to the appointment of a minister from the United States.

Understanding that in all probability Great Britain intends to appoint a representative to Canada in a similar capacity, Premier King said, "someone who will be in the position of a high commissioner to the Dominion and who will expect, perhaps, more in the way of an opportunity of conversation with the prime minister than with any other minister of the Crown."

Hon. Hugh Guthrie, Conservative leader, declared that in view of the explanation given by the prime minister he had no serious objection to the item being approved. When the vote had been a general agreement that it was for a "glorified secretary."

## To Purchase Legation Building

\$500,000 Voted for Canadian Legation at Washington

Ottawa—For the purchase of a building for the Canadian legation at Washington \$500,000 was voted by the House of Commons after a brief opposition. Hon. Hugh Guthrie, leader of the Conservative opposition, moved to have the amount reduced to \$25,000, but on division the motion was lost by 51 to 30.

The Conservative leader argued that \$25,000 would be sufficient to secure adequate rented quarters for the legation quite as good as the newly-appointed minister from the United States to Canada would secure in Ottawa.

The prime minister, in supporting the appropriation, said that it would be more economical to purchase than to rent, and moreover it would be to maintain her prestige among the nations of the world represented in Washington a proper, permanent building should be secured.

**Soviets Would Help Cantonese**  
Moscow.—A Kharkov despatch says the Ukrainian Labor Unions are being flooded with applications from workers who desire to be sent to China to help the Cantonese in their fight against the Northerners. A statement issued by the Union declares however that while the proletarians of the Soviet republic are always ready to support the Chinese toilers morally it is not recruiting men for such service.

**Work Should Be Divided**  
Vancouver.—That the building of vessels by the Canadian Government Merchant Marine for the new service to be inaugurated between Canada and the West Indies "should be divided proportionately between Atlantic and Pacific shipyards" is the recommendation contained in a resolution passed by the Vancouver board of trade and forwarded to Sir Henry Thornton, president of the Government line.

**Japan May Send More Ships**  
Tokyo.—Japan's huge fleet already in Chinese waters, is expected to be augmented soon by four more destroyers. Various "sensational" newspapers are urging the government to assume a firmer attitude toward China, but the government is insisting on maintenance of its present attitude, although announcing that recently may cause an alteration at any time.

## Bank Messenger Robbed

With Police Close By Bandits Escape With \$13,000 in Cash

Niagara Falls, N.Y.—Two armed bandits held up and robbed Francis McMahon, messenger for the Central National Bank, in the main post office and escaped with about \$13,000 in cash.

McMahon had just stepped from an armored bank car under police guard and entered the building when the men covered him with guns at the door of Postmaster Frederick G. Newell's office, took the bag of money he carried and sped away in an automobile bearing south on Ontario street.

When he jumped out of the armored car McMahon ran into the post office. Patrolman Angus McIntyre, one of the three policemen guarding the armored car, left the messenger and followed the bank messenger into the building. McMahon collided with him at the door as he was running out to give the alarm.

McIntyre ran across to the door through which the bandits fled and fired two shots as the machine sped away from the curb. Neither hit the bandit car. It is believed.

## U.S. Air Mail

May Permit Canadian Stamps to Be Used in Future

Washington, D.C.—Provision in Canadian stamps of the special value of 10 cents for the United States air mail service will be arranged for Canada, if there is any demand.

Discussing informally the extension of the U.S. air mail to Canadian mail matter, Postmaster-General Nease stated here that he saw no reason why Canada could not be given some arrangement whereby Canadian stamps could be used for the extra 10 cents postage on matter to be transported by air. At present, while the ordinary postage of two cents can be prepaid in Canadian stamps, it is necessary to buy United States stamps to prepay the extra fee. It is understood that Canadian authorities have not asked for such an arrangement. No figure could be obtained here as to the number of letters being sent by people in Canada by the air mail route who now operate from coast to coast in the United States and is said to number from one to two days on ordinary postal routes.

## South African Flag Question

Basils of Solution Believed to Have Been Found

Cape Town, South Africa.—The Cape Town Government yesterday welcomed the report of the conference between the government flag committee and representatives of the African Independent flag committee, as the basis of a solution of the flag question.

The opposition press, however, generally views the reports unfavorably, and strongly recommends the withdrawal of the flag bill this session.

The conference adjourned until May 19, with independent representatives leaving to secure approval of the new design presented by the government—a flag with the cross of St. George on a green background divided into quarters.

## Start Anti-British Movement

Native Section of Shanghai May Declare Boycott

Shanghai.—A definite anti-British movement which may take the shape of a boycott similar to those recently declared at Canton and Hong Kong, was launched in the native section of Shanghai.

A great anti-British league was organized at a meeting attended by representatives of the Komingtan (Cantonese political party), the women's association, the Transvaal Union of the International Settlements; the Telegraph Operators Union, students of the Shanghai University and others.

**Canadian Cuts Garuso's Place**  
New York.—Edward Johnson, of Guelph, Ont., is in Garuso's shoes, literally and figuratively. Already listed by John MacCormack as the greatest loser of the day, Mr. Johnson appeared as "Radman" in "Alibi" at the Metropolitan opera house wearing Garuso's costume—a gift from the widow as a tribute to the act of her husband's assassin.

**Partial Agreement With Soviets**  
Paris.—The Soviet and French representatives have reached a partial agreement on the question of the Russian debts to France. The Soviets propose in principle to pay an average of 60,000,000 francs annually for 62 years.

## Royal Competitors At Ottawa Show

Prince of Wales and Spanish Prince Are Sending Exhibits

Ottawa.—Heralds to the throne of Great Britain and Spain will vie with each other at the world's poultry congress being held here from July 27 to August 4 of this year. H.R.H. the Prince of Wales recently announced his intention of exhibiting some 100 birds from his farm in Cornwall, England, and word has been received that H.R.H. the Prince of Asturias, heir to the Spanish throne, intended exhibiting some 100 birds from his own poultry farm. The birds from the Spanish Crown Prince's farm will be the feature of the Spanish national exhibit.

Ernest Rhoades, congress secretary, received word from Prof. Salvador Castella, in charge of the royal poultry school at Arenas de Mar, Spain, that the Spanish national educational exhibit was being forwarded on May 15, and that the live bird exhibit would be sent via Chebourg on July 11. An exhibition is being held in Madrid on June 29 at which will be chosen the birds to represent Spain in addition to those from the royal farm.

The Spanish government, which has taken three spaces at the congress exhibition, with a total tonnage of sixty feet to a depth of thirty feet, states that it is prepared to leave its exhibit in place for Central Canada exhibition. Twenty official delegates are coming from Spain.

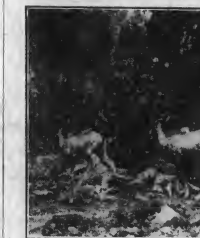

## ALBERTA COAL QUESTION IS UP FOR DISCUSSION

Ottawa.—Confidence was expressed by Hon. Charles Stewart, Minister of Interior, during a debate in the House of Commons, that if the Board of Railway Commissioners found the cost of transporting Alberta coal to Ontario was not more than \$2 a ton, this rate could be put into effect immediately, by Order-in-Council, without waiting for another session of Parliament.

The Minister agreed that to enable Alberta coal to successfully compete with American anthracite in the markets of Ontario, a \$7 ton rate was necessary, and intimated that if the board found the cost to be greater than that, the Government would be prepared to grant assistance in order to make the transportation of a million tons a year of Alberta lignite into Ontario economically feasible. The Government would take the same view in this matter as it had in granting assistance to the Maritimes.

The question of unemployment in the coal industry in Alberta was brought up by E. J. Garland, C.P.A., Bow River.

Hon. Peter Heenan, Minister of Labor, said he had had several telegrams with respect to the situation in Alberta. Immediately upon receipt of these communications, he had sent a man to the mining fields in that province to see if conditions were as bad as they were reported to be so far as he was concerned he was doing everything possible.

Why Lambs Leave Home

Fifty-three mountain sheep left their native haunts at Banff recently and were shipped by Canadian Pacific Express to their new home at Kamloops. The consignment, which was the result of a men's sheeping operation carried on by the Royal Mounted Police, was made at the request of the government of British Columbia. The sheep, which were the numbers of mountain sheep are depicted.

Victors to Banff who flock to the spot on the Banff-Wilderness high road known as "Sheep Point" for the purpose of "sheeping" Mr. and Mrs. Sheep will not notice that their band of woolly friends has lessened. As a matter of fact, the sheep have increased so rapidly, that the authori-

## WAGE INCREASE IS SOUGHT BY C.N.R. EMPLOYEES

Montreal.—The board of conciliation recently appointed to consider wage increases for more than 30,000 railway employees of the Canadian National Railways, convened here. The board is composed of W. J. Donohue, C. chairman, Winnipeg; Howard S. Ross, K.C., Montreal; representing the men, and Peter White, K.C., Toronto, acting for the railway.

Of 20,000 men, 18,000 are employed in various classes of work, including office clerks, passenger train employees, stores and stationary workers, shippers and stationary engineers and firemen. They are seeking a \$20 a month increase in pay for twenty-four hours and 10 cents an hour for those working on hourly pay basis.

The remaining 2,000 employees are carmen, sleeping and observation car service men. This class requested a 12 per cent. increase and a uniform wage schedule. At present they are subject to four different schedules, effected by the National system in the past few years.

## Protest From Alberta

Claim Immigrants Unfit for Farm Work Becomes Public Charge

Edmonton.—A protest against the dumping of Swiss and other European immigrants in Alberta cities and towns has been made by the Provincial Government, acting Premier George Hoadley has wired Robert Focke, minister of Immigration, calling his attention to the fact that men are being brought here chiefly as farm workers, who are actually in the unskilled labor class and unfit for work on the farm.

With no provision made for them on their arrival here and with a security of the sort of work they are able to do they are in most cases thrown upon the public for support and it is this phase of the situation that the Government is protesting.

## Provinces Not Included In Government Grant

Appropriation for Diamond Jubilee Celebration is for Ottawa

Program Only

Edmonton.—If Alberta puts in a diamond jubilee celebration of Confederation it will have to be at its own expense, according to an Ottawa ruling just received by the Government. The appropriation by the Federal parliament is to be spent entirely by the Ottawa committee, for its own program. There is no intention to allocate any portion of the quarter million grant to the general province.

## Made Honorary Life Member

Vancouver.—Viscount Willingdon, governor-general, was made an honorary life member of the British Columbia Institute of Journalists when he and Lady Willingdon were entertained by members of the Institute.

## NEW PROBLEMS ARE NOW FACING THE CANTONESE

Shanghai.—Serious reverses on the Yangtze battlefield and on the Shanghai and elsewhere between the moderates and radicals are problems now facing the Cantonese, who only a few weeks ago were hammering northward in a definite threat on Peking, seat of the Northern government.

The factional controversy between the military and moderate wing of the Cantonese regime and the civil and radical wing, which has its seat at Hankow, rumbling for many weeks, flared into active conflict when plain clothes men, acting in the direction of General Chiang Kai-shek, the Cantonese generalissimo, leader of the moderates raided the headquarters of the Cantonese radical labor unions in Shanghai, Hangchow, Ning and Amoy.

Fighting raged and in Shanghai 12 persons were killed and many wounded in the various struggles. The raiders, armed with machine guns, pistols and bombs, attacked the headquarters of the Cantonese radical labor unions in Shanghai, Hangchow, Ning and Amoy, although there was comparatively little fighting in the latter places.

## Problems Of Smuggling

U.S. Prison Made Goods Finding Their Way Into Canada

Toronto.—R. P. Sparks, chairman of the Commercial Protective association, gave further evidence before the royal customs commission, here. He dealt first with the importation of prison-made goods into Canada. This created a most "offensive competition" but no adequate system of prevention had been established. Last year said Mr. Sparks, \$60,000, 000 worth of prison-made goods had been produced in the penal institutions of the United States. As the labor organizations and other interested parties objected to the sale of these goods in the United States open market, a proportion of them found their way into Canada. This had been proven thoroughly at Rock Island, Quebec, said Mr. Sparks.

"What the preventive service needs is brains, and not brawn," declared Mr. Sparks, this morning. "The expert men, he believed, would do more to solve the problems of smuggling than an army of untrained officers."

The efforts of his organization were not directed against smuggling, he said.

"But the man who, under cover of his 'kneecaps' in a truckload of silk is a criminal," he declared. "The smuggler broke the law but his offense might be regarded in the nature of a moral lapse, while that of the big commercial smuggler was a deliberate crime. The real deterrent was a jail sentence, not a fine, he said."

"What you recommend is rigid, swift, impartial enforcement of the law," interjected Chief Commissioner Brown.

"Yes," said Mr. Sparks.

## Supplementary Estimates

Grants for Maritime Provinces as Recommended by Duncan Report

Ottawa.—Supplementary estimates for 1927-28 were tabled in the House by H. A. Ross.

The total is \$11,642,811.27, of which \$628,823 is chargeable to capital account, the balance \$11,013,988.12 being chargeable to Consolidated Revenue fund account.

Provision is made for grants to the Maritime provinces pending consideration of provincial subsidies. Nova Scotia, \$875,000; New Brunswick, \$600,000; Prince Edward Island, \$125,000, a total of \$1,600,000, as recommended by the Duncan report.

Flat increases for the civil service are provided in an item of \$2,700,000.

An amount of \$500,000 is included for the purchase of land, building equipment and furnishings for combined residence and offices for the Canadian legation at Washington, D.C.

A further grant of \$50,000 is made towards expenditures in connection with the World Poultry congress to be held in Ottawa this summer.

There is \$15,000 to provide for a trial shipment of Alberta domestic coal to be made by rail and lake under the supervision of the Dominion Fuel board, provided one-third of the total cost of the government is borne by other governmental, municipal and private organizations.

## NEW PROBLEMS ARE NOW FACING THE CANTONESE

Shanghai.—Serious reverses on the Yangtze battlefield and on the Shanghai and elsewhere between the moderates and radicals are problems now facing the Cantonese, who only a few weeks ago were hammering northward in a definite threat on Peking, seat of the Northern government.

The factional controversy between the military and moderate wing of the Cantonese regime and the civil and radical wing, which has its seat at Hankow, rumbling for many weeks, flared into active conflict when plain clothes men, acting in the direction of General Chiang Kai-shek, the Cantonese generalissimo, leader of the moderates raided the headquarters of the Cantonese radical labor unions in Shanghai, Hangchow, Ning and Amoy.

Fighting raged and in Shanghai 12 persons were killed and many wounded in the various struggles. The raiders, armed with machine guns, pistols and bombs, attacked the headquarters of the Cantonese radical labor unions in Shanghai, Hangchow, Ning and Amoy, although there was comparatively little fighting in the latter places.

## BRITISH WOMEN MAY CONTROL LARGEST VOTE

London.—John Bull may be elected in the next general election by the women of his household.

This prospect was created by Premier Lloyd George's announcement in the House of Commons that the Government will introduce a bill at the next session of Parliament lowering the minimum voting age for women from 21 to 21 years. It is estimated that 5,000,000 women will be enfranchised under the measure and when the next general election comes around "normally late in 1929 there will be 12,000,000 British women able to vote, compared with about 11,000,000 men."

The momentous declaration was made with seeming unconsciousness by the prime minister following discussion of the franchise question by the cabinet. In a low tone he informed the House of the Government's decision to lower the voting age for women to equality with men.

The announcement immediately became the political sensation of the day. The budget, introduced by Churchill and the Government's much discussed bill for regulating trades unions, were forgotten as press and public started to discuss Britain's political future, with the hope of power in the hands of the women.

The announcement is hailed by suffragists as the final victory in a long campaign which started decades ago in the hospitals and courtrooms of 60 years ago and started a whirlwind finish during the past two months with much lobbying by women and much talk about bobbed hair, short skirts and "votes for women."

## China Needs Powerful Leader

Or Struggle May Last For Years

Opinion of Shanghai Official

Shanghai.—Foreigners may never fully regain the status they held in China before the recent unrest started in the opinion of Sterling Fessenden, chairman of the Shanghai municipal council. This council is the governing body of the international settlement at Shanghai.

Mr. Fessenden predicts that the present military struggle in China may continue for a number of years depending on whether some powerful leader arises who can command the respect or fear of the Chinese people. The economic disturbance may not abate for many years.

With regard to the defence of the foreign settlements at Shanghai, Mr. Fessenden made the following remark:

"Had not the British foreseen the situation and sent large numbers of British soldiers to Shanghai, the situation would have been massed."

## Plane For H.B. Job

Edinburgh Airport, N.S.—Lt. A. T. Lawrence, of the Royal Canadian Air Force, took off for Halifax in the first of six Fokker aeroplanes purchased by the Canadian Government for extensive survey work on Hudson Bay and Hudson Strait. The other five machines are to be delivered before June.

## Miners Appeal For Relief

Ottawa.—An appeal from the miners of Lethbridge that the Government take some action to relieve the situation there as a result of the strike being closed, was read in the House of Commons by Hon. Hugh Guthrie, Conservative leader. No action was taken on it.

## Twenty Drown in Boat Accident

Tokio.—More than 20 persons were drowned near Fusan, Korea, when an overloaded ferry capsized. At least there were 200 passengers on the boat. While a number were still afloat, the authorities stated they believed the majority of the passengers were rescued.

## No Agreement With Italy

Ottawa.—There is no agreement between the Italian and Canadian governments with regard to bringing Italian laborers to Canada. As Robert Forke, minister of Immigration, said in the House in reply to a question from Hon. J. Woodsworth.

## Erecting New Wireless Station

Calgary.—Erection of one of the most powerful broadcasting stations in Canada, at Red Deer, Alberta, is announced by the Alberta Broadcasting Company, which operates 330 kilowatt station at Banff, 800 kilowatt station at Edmonton and 100 kilowatt station at Calgary.

## Local and General Briefs.

Little Miss Peggy Devine celebrated her sixth birthday anniversary on Wednesday afternoon by giving a party at her home on Fifth street to a number of her young playmates.

The Coleman schools re-open on Monday of next week after being closed for ten days during Easter.

Mr. A. Phillips, of Coleman, won first in the baritone solo competition at the Musical Festival at Blairmore on Tuesday evening. This is the second consecutive year that this well known local vocalist has captured this honor and medal.

Mr. R. F. Barnes will be in Calgary on Sunday and Monday pursuing his military studies in preparation for the campaign in China. Before proceeding to Shanghai however, Mr. Barnes will return to Coleman to appear in "Facing the Music" which will be the offering of the Coleman Amateur Dramatic Club this season.

Pincher Creek carried off the honors at the Festival on Tuesday night in the tenor and baritone duet and also in the male quartette competitions.

Mrs. Fernie Beck is spending the Easter holidays at the home of Mr. and Mrs. A. Beck, at their ranch west of town.

Mr. and Mrs. Alex Muir, 4th street, are receiving congratulations on the arrival of a baby boy at their home on Thursday of last week.

Mrs. I. Armstrong is being welcomed again to Pincher Creek. She is a guest of Mr. and Mrs. Alfred Armstrong and has for the past few weeks been with her daughter, Mrs. R. G. Powell of Coleman.—Pincher Creek Echo.

Miss N. Yuill of the Cameron school staff, is spending the Easter vacation in Calgary.

Messrs. H. C. McBurney and J. C. Cox motored to Lethbridge on Good Friday to attend the Southern Alberta Kennel Club Show.

The regular meeting of the W. I. will be held at the home of Mrs. A. E. Graham on April 28th. Roll call will be answered with a question box on plant raising. Members are also requested to bring plant slips for exchange one with the other. Further interest will be added to the meeting by a demonstration on the uses of bread dough.

Mr. and Mrs. W. S. Purvis motored to Calgary last week-end, returning to Coleman on Monday.

Mr. W. Watts, the leading juvenile character in "Facing the Music" which is to be produced at the Grand Theatre, Coleman, on May 4th, spent the Easter holidays in Calgary. Mr. Watts has had a strenuous season in rehearsal and states that he will be in the pink of condition upon his return.

Mr. Geo. Pattinson, of Coleman, was installed in the office of District Grand Supt. of the Grand Chapter of Alberta, R. A. M., at Hillcrest on Tuesday evening of this week.

His Lordship Bishop Kidd, of Calgary, will be on a confirmation tour in the interior of B. C. for some weeks, and in passing he will spend Friday of this week in The Pass.

Mr. Jack Downie, of Vulcan, spent Easter with friends in Coleman.

Miss G. McKay is spending the Easter holidays in Calgary.

Mr. J. Price, who has been visiting with Mr. and Mrs. J. L. Lonsbury during the past few weeks, returned to Seattle on Tuesday morning.

Mr. Albert Knowles is around again after being confined to his home for a week, as a result of being struck in the chest by a piece of wood which fractured a rib.

Showing at the Palace and Grand theatres on Saturday of this week, Hilda Gray in "Aloma of the South Seas."

A dance will be held in the I. O. O. F. hall on Thursday evening, April 21st, at 8.30 p. m., to which Masons and members of the Eastern Star, their wives and families are cordially invited.

The Misses Ethel and Margaret Dunlop are spending the Easter holidays with relatives at Granum.

Mr. T. Holsted spent the week-end with his parents at Macleod.

By a narrow margin the Blairmore senior choir won first place over the Fernie choir at the Musical Festival on Tuesday evening.

Rev. A. D. Currie was a visitor in Calgary the early part of this week.

The Hillcrest Junior Orchestra received first place on Tuesday night at the Musical Festival at Blairmore.

Watch for Lon Chaney in "The Road to Mandalay," coming to the Palace and Grand theatres soon.

## Car For Sale

McLaughlin Six Cylinder Touring Car, in good running condition for sale. Cash or terms. This is a bargain for somebody. Apply to H. Collings, Empire Hotel, Coleman.

—25-2 p.

## Here and There

From the year 1919 to 1925 there was an increase of \$1,353,772,886 in the total taxable value of realty in Canada, according to the Dominion Bureau of Statistics. The value in the latter year was \$7,331,785,635.

The maple syrup production of the Province of Quebec will be in the neighborhood of 20,000,000 gallons, it has been officially estimated, this being an average output. The season has been much more advanced than in former years.

The pulp newspaper mill of the New Brunswick International Paper Co., Ltd., will be erected in Dalhousie, it is understood, as it is said that satisfactory arrangements resulted at the conference between representatives of the company and the town council.

A school will be established at the Vancouver Shops of the Canadian Pacific Railway for the purpose of instructing the apprentices in mathematics and drawing. It was announced recently by A. Sturrock, assistant superintendent of motive power, western lines.

"Merry Sunshine," an eight year old bull cow, bred and owned by Gowan Brothers, of Kamloops, has recently completed a 365-day R.O.P. record and established a new Canadian record with 13,217 pounds of milk. This record was made under ordinary farm conditions on a ranch nearly 4,000 feet above sea level, the cow staying out of doors day and night.

A cable from London, England, reads: "Following the perfection of a method for the production of artificial wool from pine needles by Italian and German scientists, a British financial and industrial corporation is in touch with Quebec Provincial Agents Office at Quebec City investigating the possibility of establishing such an industry in Quebec Province."

A great future for tobacco growing in Western Ontario is predicted by the Hon. J. S. Martin, Provincial Minister of Agriculture, who states that counties engaged in this industry have demonstrated that they can grow as fine tobacco leaf as Kentucky or Virginia. A number of experts have been engaged, he announced, to visit new growers and give them all information possible.

## Section 17 Alberta Act Held to be Constitutional

OTTAWA, April 20.—By a unanimous judgment of the Supreme Court of Canada, this morning decided that section 17 of the Alberta Act "is not in whole or in part ultra vires of the parliament of Canada."

This section of the Alberta Act refers to separate schools in the province. It provides that section ninety-three of the British North America Act (which subject to certain provisions, gives to provincial legislatures authority to enact laws relating to education) shall apply to Alberta with the substitution for the first paragraph of section 93 the words:

"Nothing in any such law shall prejudicially affect any right or privilege with respect to separate schools which any class of persons have at the date of the passing of this act under the terms of chapters 29 and 30 of the ordinances of the Northwest Territories, passed in 1901, or with regard to religious instruction in any public or separate school as provided in said ordinances."

The court also decided in favor of the crown in the claim of the Hudson's Bay company to ownership of the precious metals on lands adjoining its posts.

Ottawa.—At the offices of World's Poultry Congress in Transportation building, Ottawa, a competent staff is at present engaged in preparation to house the Congress membership. As each application for reservation comes in it is carefully noted and filed, the nature of accommodation considered, and arrangements at once made for the billeting of the delegate or delegates who make the application. This billeting service is available to those who take out their Congress membership prior to their arrival in Ottawa.

Don't let us expend any of our energy fussing about how the "surplus" from Coleman's Diamond Jubilee Celebration is to be expended. Let us devote all our efforts to assuring a surplus by putting the affair over in a big, broad way.

## I Have Everything That Is Necessary For Spring House Cleaning

Alabastine, Paint, Varnishes and Brushes of all kinds, and what will look better than some nice new floor covering after you have done the cleaning.

## Banff's Big Indian Pow Wow a Colorful Spectacle

The Stoney Indians, who live near Banff, Alberta, in the Canadian Rockies, believe in the old adage: "All work and no play makes Chief Jack a dull boy!" or words to that effect. Consequently, when they leave their Morley Reserve in July for their annual Pow Wow, at Banff, they put on for two or three days one of the most colorful and unique spectacles seen in North America. Headed by such noted chiefs as Moose-killer, otherwise Peter Wesley, who still has Quebec's treacherous flag; Horseshoe, Redox-Crawley, medicine man; Walking Buffalo, Johnnie Bearpaw, David Bearpaw, Green Hills and Spotted Eagle, they parade each morning through the streets of Banff and to the courtyard of the Banff Springs Hotel, resplendent in gorgeous trappings of head-work, ermine tails and eagle feathers. The squaws and bucks have on more var-

paint than a Broadway flapper, and even the horses are painted.

Tiny papooses are carried in moss-bags on their mother's backs, or on the old travois, and their little, shining faces seem to reflect the happiness of all these "people of the woods" in being back again in the mountains which they loved to roam. These Indians are thrifty. Some of them have ranches in the foothills of the Canadian Rockies; they cut and export wood; the squaws do beautiful bead-work, which they sell; the trap-lined yield valuable furs; and on the whole, the Stoney are the most capable and business-like of the Western Canadian Indians.

Tribe sports, bow and arrow contests, pony races, tepee pitching in the shortest time, squaw races, wrestling on horseback by young Indians and many other events, equally interesting, are staged daily in the Elk Pasture near Banff Park. In a lovely meadow surrounded by majestic mountains, the tepees are pitched along the sides of a vast redoubt and many are painted in fantastic designs, lending a dash of color to the scene. Meals are cooked in the open, squaws carry wood and water while little children romp and play around the tepees. In the evenings, the Indians dance in a circle to the music of tom-toms and sing the weird songs which their ancestors have sung for centuries on the shores of Bear-by Lake Minniewanka, the "Spirit Water" of the Stoney.
